Traffic Count  
Report  
September 2001**

## **Poughkeepsie-Dutchess County Transportation Council (2001-2002)**

---

**William R. Steinhaus**  
County of Dutchess  
Executive  
Chairman

**Ward Todd**  
Ulster County  
Legislative Chairman

**Clara Lou Gould**  
City of Beacon  
Mayor

**Peter Idema**  
Town of East Fishkill  
Supervisor

**Yancy Mc Arthur**  
Town of Hyde Park  
Supervisor

**James Tanner**  
Town of Pawling  
Supervisor

**William Dowden**  
Town of Rhinebeck  
Supervisor

**Mary Ross**  
Village of Wappingers Falls  
Mayor

**Joseph H. Boardman**  
NYS Department of Transportation  
Commissioner

**Marc V. Shaw**  
Metropolitan Transportation Authority  
Executive Director

**Colette Lafuente**  
City of Poughkeepsie  
Mayor

**Joan Pagones**  
Town of Fishkill  
Supervisor

**Harold Berean**  
Town of Lloyd  
Supervisor

**Ann Barcher**  
Town of Poughkeepsie  
Supervisor

**Constance Smith**  
Town of Wappinger  
Supervisor

**Robert A Dennison, III**  
NYS Department of Transportation  
Regional Director  
Secretary

---

**Jack Gaffney**  
NYS Bridge Authority  
Executive Director

**Ramesh Mehta**  
NYS Thruway Authority  
Division Director

**Robert Arnold**  
FHWA  
Division Administrator

**Letitia Thompson**  
FTA  
Regional Director

# **2000 Traffic Count Report**

**September, 2001**

**Poughkeepsie-Dutchess County  
Transportation Council**

Financial Assistance for this study was received from the Federal Highway Administration and the New York State Department of Transportation

## Project Team

**Eoin Wrafter**, AICP, Senior Planner

**Mark Debald**, Planner

**Dennis Amone**, Graphic Designer

Additional Information was provided by Jon Hodos, NYSDOT Traffic Count Section.

## **Summary**

This report includes AADT (Annual Average Daily Traffic) and peak hour traffic count information for the state, county and local roads in Dutchess County for which traffic count data was obtained in 2000. Roads for which no 2000 data is available are not included in this report.

## **Data Description**

Traffic count data for 43 state, 97 county, 153 local road segments and, 33 railroad crossings are included in this report. A total of 326 counts were taken. Traffic counts represent the combined total of all lanes of traffic on each road. Therefore, both directions of travel are combined on two-way roads.

There are two tables in this report. Both tables present the same data, each categorizing the data differently. In the first table, the data is categorized by jurisdiction with state roads first, followed by county roads and then local roads. In the second table, the traffic count data is categorized by municipality.

The report includes the following data:

### **Road Name:**

The name of the road which was counted. State roads are listed as 'Rt.', county roads as 'CR', and local roads by their common names. Roads with a 'R' following the name designate railroad crossings.

### **Municipality:**

The city, town or village in which the count was taken. C/, T/, and V/ indicate city, town and village, respectively.

### **TCS:**

The Traffic Count Station number. These numbers are assigned by the New York State Department of Transportation for counts that they have done and by the PDCTC for counts taken by our consultants.

### **Section:**

Roads which have multiple counts were counted in sections. These sections are the areas between the "From" and "To" points. For railroad crossing counts, the owner and name of the railroad line crossed is listed in the "From" column.

**AADT:**

The annual average daily traffic (AADT) is the number of vehicles that would be assumed counted on a “typical” day of the year. Based on established formulas, a taken count is factored to an AADT by adjusting it for seasonality and vehicle classifications. Adjusting for seasonality is necessary because each season undergoes an increase or decrease in traffic volumes. Counts are adjusted for vehicle classifications because trucks with three or more axles appear as several cars to the counters.

**Peak Volume:**

For the purpose of this report, the peak volume was chosen to be the traffic count for the hour between 4:00 pm and 5:00 pm for all roads. The actual peak volume may be higher.

**Data Sources**

Traffic counts were gathered by the New York State Department of Transportation, the Dutchess County Department of Public Works, and Montgomery Watson Harza Inc. under contract to the Poughkeepsie-Dutchess County Transportation Council during 2000.

**Maps**

The maps on pages 29, 30, and 31 show the locations where the traffic counts were taken. Map 1 shows the locations of the state, county and local road counts, with the exception of the cities of Beacon and Poughkeepsie. Map 2 shows the count locations in the city of Beacon, and Map 3 shows the count locations in the city of Poughkeepsie.

All traffic count locations are identified by their traffic count station (TCS) number assigned in the table.
